- Efficient riggings
- A full range of standard & optional parts
- Aluminium & composite

Gamme Performance line **SPARCRAFT**

www.sparcraft.com

Performance sections

■ The sections of the Performance line are available for racing or fast cruising for boats up to 72 feet.

Mastheads

■ Different models are available according to your sailing needs : fractional or mast head rig, extruded, tapered or non. There are several sheave options.

Spreaders

■ The spreader sections are profiled and the spreader roots are specially designed for rigging with emphasis on loads and high stability.

Equipment

■ More than 12,000 Sparcraft parts are available to meet your needs : cleats, winch pads, spinnaker gear, tips or thru-bars of spreaders...

Performance Design

■ The profile and functions of the mast parts are optimized in the design. The Performance range takes into account the specifications of racing type rigging: weight, strain, performance and aerodynamics...

Fabrication / Manufacturing

■ We use the most recent techniques in aluminium and carbon manufacturing to develop your products to perfection.

Garantie / Warranty

■ All our products have a one year warranty.

Performance Reference

■ Mass series are equipped with "Performance" Line : Dufour, Delhler, Elan, First, Grand Soleil, Jboat, Sunbeam, X-Yacht, Sunfast, Multihulls,...
